

## Master Document: The Path of the Teacher

Congratulations! You have decided to organize a nature class for your students. This is, of course, a school trip, but it is especially a unique experience that you are about to offer to your youth. The P'tit Bonheur camp is ready to rally to make your stay memorable and up to your expectations.

This “master document” has been designed to support you in all steps, from preparation to evaluation, until implementation, of course. In the form of a checklist, the following tables will allow you to remember everything and, most importantly, will point out the tools needed to complete your project.

It is up to you to choose the tools that will make your life easier!

### **BEFORE YOU LEAVE**

#### ***To Start the Project***

TO DO	TOOL	DONE	PERSONAL NOTES
Request a quote from the camp on the estimated number of participants and the activity formula selected	Estimated Budget	<input type="radio"/>
